

## TRANSPARENCY POLICY INTRODUCTION

The Parish Council has adopted a Model Publication Scheme. This represents the Council's commitment to release information proactively. A guide detailing the information routinely published and how this information can be accessed is available on the Council's website ([www.crowtonpc.com](http://www.crowtonpc.com)) or as a hard copy from the Parish Clerk

The Local Government Transparency Code 2015 was issued to meet the Government's desire to place more power into citizens' hands to increase democratic accountability and make it easier for local people to contribute to the local decision-making process and help shape public services.

Transparency is the foundation of local accountability and the key that gives people the tools and information they need to enable them to play a bigger role in society.

The availability of data can also open new markets for local business, the voluntary and community sectors and social enterprises to run services or manage public assets. 'Data' means the objective, factual data, on which policy decisions are based and on which public services are assessed, or which is collected or generated in the course of public service delivery.

This should be the basis for publication of information on the discharge of local authority functions. The Government believes that in principle all data held and managed by local authorities should be made available to local people unless there are specific sensitivities (e.g. protecting vulnerable people or commercial and operational considerations) to doing so. It encourages local authorities to see data as a valuable resource not only to themselves, but also their partners and local people.

These principals have guided the development of this Code:

- **demand led** – there are growing expectations that new technologies and publication of data should support transparency and accountability. It is vital that public bodies recognise the value to the public of the data they hold, understand what they hold, what their communities want and then release it in a way that allows the public, developers and the media to use it
- **open** – provision of public data should become integral to local authority engagement with local people so that it drives accountability to them. Its availability should be promoted and publicised so that residents know how to access it and how it can be used. Presentation should be helpful and accessible to local people and other interested persons, and 2 Transparency Policy – Approved September 2022
- **timely** – the timeliness of making public data available is often of vital importance. It should be made public as soon as possible following production even if it is not accompanied with detailed analysis. This Code ensures local people can now see and access data covering:
- **how money is spent** – for example, all spending transactions over £500, all Government Procurement Card spending, and contracts valued over £5,000
- **use of assets** – ensuring that local people are able to scrutinise how well their local authority manages its assets.
- **decision making** – how decisions are taken and who is taking them, including how much senior staff are paid, and
- **issues important to local people** -Annex A attached clearly summarises all information to publish and the Parish Council will ensure that all the information that is mandatory to publish will be provided on the Parish Council's Website. The Parish Council realises the importance of adhering to the Transparency Code and the Accessibility Regulations 2018 and will endeavour to comply with legislation.

## ACTON BRIDGE PARISH COUNCIL

### FREEDOM OF INFORMATION

Information available from Acton Bridge Parish Council under The Model Publication Scheme

Information to be published	How the information can be obtained	Cost
<b>Class 1 – Who we are and what we do</b> <i>(Organisational information, structures, locations and contacts)</i> This will be current information only	All available information mentioned below can be obtained from the Parish Clerk or the Website address where mentioned which is <a href="http://www.actonbridgeparishcouncil.org">www.actonbridgeparishcouncil.org</a>	
Who's who on the Council	Hard copy, email, and website	10p per page + pp
